

Undergraduate College Credit Student Application Packet

Congratulations on your participation in Project Lead The Way courses at your high school!

Upon completion of your PLTW course you may be eligible to take the PLTW College Level Examination. When you successfully complete the PLTW College Level Examination you may be eligible to apply for undergraduate college credit at the University of South Carolina. Check with your PLTW course teacher to see if you meet the criteria to apply for USC undergraduate college credit.

Currently, the following courses are available for college credit through USC:
ELCT 101 Digital Electronics (DE)
ENCP 101 Principles of Engineering (POE)
EMCH 111 Introduction to Engineering Design (IED)

Your Application:

If you are interested in receiving undergraduate college credit at the University of South Carolina for your PLTW course at the end of the term, you should complete and return this application packet to the College of Engineering and Computing.

Complete the entire application making sure the following information is correct.

- Social Security number
- Birth date (including year)
- Dates of attendance
(When you started and anticipate graduation from your current high school.)
- Signature

- Completed Residency Application
- Completed University of South Carolina Citizenship Status Verification Form

- Completed verification form from Guidance verifying your eligibility.
(Students are required to verify a B average or SAT Critical Reading + Math score of 1100, or equivalent ACT Composite score of 24, or PSAT score of 110.)
- Completed registration card
- Completed End of Course grade form

It is suggested you have your PLTW teacher review and approve your completed application when possible.

You must provide tuition payment in the amount of \$198.00 (\$66.00/credit hour) for each PLTW course to establish your 3 semester hours of USC undergraduate college credit per course. This payment must be sent with your completed application. Checks should be made payable to "The University of South Carolina."

**Send your completed application with payment to: Ms. Krystal DuBose,
PLTW Affiliate Director, 1A14 Swearingen Engineering Center, College of
Engineering and Computing, University of South Carolina, Columbia, South
Carolina, 29208**

All applications must be mailed in (and not before) May 1st through July 15th each year. Please only mail completed packets during this window of time. If received outside of this window of time, packets will be returned.
